The Use and Explanation of the foregoing Table of the Pleiades, or Seven-Stars.

THE Table of the *Pleiades*, or *Seven-Stars* Contains five Columns; the First towards the Right-Hand sheweth every Fifth Day of the Month, as 1, 6, 11, 16, &c. And the Second shews their Rising in Hours, and the Third their Southing. The Fourth their Setting plain by their very Titles; and herein you are to Observe the Letter (a) signifies Afternoon, and the Letter (b) Noon, or Morning, and so likewise in the 5th 6th and 7th Columns the same, and also in the 8th and 9th and 10th, is Plain to the Meanest Capacity, as for

Example.

Suppose you desire to know the Rising, Southing, and Setting of the *Pleiades*, or *Seven-Stars*; On *January 21* I find Rise 10, (b) 16, which shews they Rise at 10 of the Clock 16 Minutes past before Noon, as the Letter (b) at Noon notes, they are South the same Day, at 6 (a) 32, that is a Clock, and 32 Minutes past in the Afternoon, as the (a) at the Top signifies in the Second Column, and in the Third Column, you will find they Set the same 21st of *January* 2, (m) 48, which is 2 a Clock, and 48 Minutes past, by (m) by which Letter is meant Morning; again on *May 21*, they Rise at 8, and 15, Minutes past before Noon South at 4, and 30, Minutes past in the Afternoon, and 32, and 46, Minutes past in the Morning; again, *May 21* they Rise at 6, and 31 Minutes past in the Morning, South at 2, and 47 minutes past in the Afternoon, and Set at 11, 3 minutes past in the Afternoon, or Night, and so of the rest of the Months, which is both Plain and Easy to the meanest Capacity, and of great Use to the Honest Country-man,

The Name of Kings is Great and full of Splendor,

A Greater Monarch surely cannot Reign;
Then Glorious *Anna*, our Dread Sovereign,
May she Live long, to pull the Tyrant Down:
And Quell those Monsters, wou'd disturb her Throne.

Observations.

Now by Divine Providence we are arrived to the Year 1712, which soon presents us with an Opposition of *Saturn* and *Mercury*, who soon after opposes both *Mars* and the *Sun*, now many fly practices on foot, and the Restless Tribe scarce able to keep within the bounds of Modesty. Nay Majesty it self in some places seems to be Affronted, some will be catch'd in their Villainy, and may they be well Bewarded, many heats and Animosities, much Grumbling and repining. The Eclips of the Moon in this Month in the Regal Sign *Leo*, may remove some Great man of the Stage and give Trouble to others, his Holiness uneasy, and I can never think that Man Infallible, who turns with the Times as a Weather Cock with the Wind. The Mouth of a Righteous Man is a well of Life, but violence covereth the Mouth of the Wicked.

February hath XXIX Days.

And the Figure of the Heaven from the beginning to the End, you may come to understand what they Pretend.

3 The Lord of the Interluary Figure signifies very much to the Quality, and Nature of the Air, and also the Planet that beholds him Especially.

Observations.

This Month is mostly concern'd in Consultations, and many hopeful Endeavours used to set things in a right way, the Grumbling parts are pretty well Calmed, but trust em not, weedle and cant may deceive the Ignorant, but the honest Heared and Loyal Man is always steady in his Principles. The Opposition of Saturn and Mercury this Month shews that Libels will be dispersed abroad more than Common, also Forgery and much Cheating, by bribes and otherwise, and you may easily see who are most prone to that way of dealing. here is also a Conjunction of the Sun and Mars, and this will Create Quarrels, &c, in many places, especially those subject to the Sign Pisces, &c, but Remember, that every one that is Proud In Heart is an Abomination to the Lord, and though hand join in hand he shall not go unpunished.

March hath XXXI Days.

they be in Carnal Signs, 4 when Saturn is Combust in the House of Mars, and Mars beholds him, he often brings Conical Figures which are seen in the Air composed of that Ascend and are Figures of Earthquakes to Enſue, &c.

Observations,

The Aspects of this Month are few and very Benevolent, and at the present, things look with a very good Face, God preserve the Queen and Parliament, and prosper all their Endeavours, and Undertakings. Let the Church of England flourish, and let not a Weapon forg'd against her Prosper.

Now the Righteous are in Authority, the People may Rejoyce, but when the Wicked bear Rule, (tho' they are never such pretended Saints) then the People Mourn.

Now or near this time there is hopes of hearing good news from Abroad, notwithstanding the Endeavours of our Enemies both Foreign and Domestick to the Contrary, observe a Righteous and good Man will Regard the Life of his Beast, but the Tenderest Mercies of a Wicked Man (as the best) are but Cruel.

April hath XXX Days.

5 Saturn and Mars, and Mars and the Sun, and Mars and Mercury Cause Hail. Saturn most in Summer, Sol and Mercury in Autumn, and those that cause Hail in these two cause Snow for the most part in the Winter and Spring.

Observations:

This Month is Usher'd in with a Conjunction of the Sun and Mercury, and perhaps some secret Contrivance may be brought to light, Let God arise, and let his Enemies be scatter'd, and let all the Sons of Belial that mean Evil to our Sion, be as the dust before the Wind. The Square of the Sun and Jupiter does menace the remove, disgrace or Death of some Eminent Man of the long Robe, and may also animate some former Mischief, and again the Square of the Sun and Saturn may Remove some great Officer of State, either by Death or otherwise, when the Wicked are multiply'd, Transgression increaseth, but the Righteous shall see his fall. Good news near this time. Now let the Sons of Zion Rejoyce.

Day hath XXXI Days.

6 Saturn with the Luminaries, Jupiter with Mercury, and Venus make an *Aportio Portarum*, or an opening of these planets having their Houses opposite to each other make some notable Change of Weather.

This Month also produces a Square of Jupiter and Venus, and another of Saturn and Venus; some eminent Lady may expect much Affliction, if not Death; it is appointed for all Men once to die, and after that the Judgment; so he that lives well, may be sure to die well, and meet his Reward. There is a Trine of the Sun and Jupiter, this will bring Two in a great Station to a right understanding, and some former Difference brought to a good End; now some good News from Abroad, and some old Sophister caught in Vulcan's Net, which is all I shall say of the Matter.

June hath XXX. Days.

It is observable, that if about the beginning of Winter Saturn does dispose of the Moon, People may expect Coughs, great Colds, and much Affliction to the Lungs; and is promoted by a cloudy rainy Season, which is like to happen then.

Observations

The Aspects

Month, are of a healing Nature, and we may hope to see former Differences accommodatad; many are the Endeavours of the wife and prudent; notwithstanding the Malice of the self-interested Party, who rather than lose their Ends in modelling according to their own Fancy, would throw all into a Flame; I hope by this time, a Man may distinguish a Papist in a Mask, from a bare fac'd one, and judge which is most dangerous to a Government from the Mercy of God, Libera Nos Domine.

The Sex ile of Saturn and Mercury, and that of Saturn and Mars, will produce some fly Contrivance; let the Actors beware, they will have but ill Success in their Undertakings; observe the Sex ile of Saturn and Mercury is twice Repeated, and will have its Effects, let time declare in what manner, &c.

July hath XXXI. Days.

At what time Saturn shall be joined to the Sun, the Heat will be remitted and less'ned, and also the Cold increased which alone may be sufficient to prove the Truth of Astrology ; but further observe what follows, &c.

There is a Conjun- ction of <i>Saturn</i> and the <i>Sun</i> in <i>Leo</i> ; some Prince or Potentate in Trouble, both of Body and Mind; <i>Rome</i> uneasy; and the Pope out of Order &c.

This Month produces 4 square Aspects of the Planets; the 1st is a square of the *Sun* and *Saturn*; this may give a remove to some Officer of State; and as he meets with the square of *Mercury* also, it bodes much Grumbling and Repining, among dissatisfied People, who cannot be contented to live quietly under the mildest Government in the World; let 'em go on, and be rewarded according to their Works. Now many Exploits will be play'd, Thieving, Cheating, and Tricking, in Fashion; and some of the Managers in Warlike Affairs, call'd to Account; or some Officer of Note degraded. Stolen Waters to some are sweet, and Bread eaten in secret is Pleasant. There is a way that seemeth right to some, but the end thereof are the Ways of Death; therefore let him that thinketh he stands, take heed lest he fall.

December hath XXXI. Days.

And lastly, *Jupiter* naturally raises North Winds, *Saturn* naturally causes Easterly Winds; *Mars* blusters and sends forth Western Winds; *Venus* produces Southern; and *Mercury* mixed Winds according as he applies to other Planets.

POLEY's *Astrological Observations*, 1712.

Of the Eclipses this Year, 1712.

THIS Year will Produce Four Eclipses, and are in order as follows, (*viz.*)

The First is a small Eclipse of the Moon. on the 14th day of January in the Evening, it will be visible if the Air be clear, but not 3 digits or 3 parts of 12 of the Moons Body be Obscured; this Eclipse happens in the very beginning of the Royal Sign *Leo*; and Authors tell us, it denotes the death of some Great King or Mighty Man; Let time declare Truth, &c.

The Second is of the Sun, on the 22d day of June, near 11 o'clock, and so Invisible, and therefore I shall say no more of it.

The Third is of the Moon, on the seventh day of July near the Morning; it is small and Invisible, and not 2 digits obscured.

The Fourth and Last is of the Sun, on December the seventh, about One in the Morning, and so Invisible to us.

Now as touching the Eclipses of the Luminaries (you are to observe) it's only a deprivation of their Light, that of the Sun never happens, but at a Conjunction of the Luminaries, or much more Plainly, at the change of the Moon; and this by the Interposition of the Body of the Moon betwixt the Sun and Earth, averting and turning his Beams from the Earth, and the Sun becomes obscured or darkned for that time.

The Eclipse of the Moon is occasioned by the Diametrical Opposition between the Sun and the Moon, and does thereby deprive her of the Borrow'd Light she receives from the Sun, for the time the Eclipse holds; and this is ever at the Opposition of the Luminaries, or more plain at the full Moon, and indeed would happen to the Sun every change, and to the Moon every full Moon, did not the Moon by her Latitude North and South, sometimes deviate from the Ecliptick Line, Northward and Southward, sometimes five degrees, and therefore not so directly meet with the Conjunction and Opposition of the Sun, which always moves in the Ecliptick Line; and thus I have given you the Number of the Eclipses for this Year, and the Reason of the same in this and all other Years, as far as it is possible to demonstrate it, &c.

COLEY's *Astrological Observations,*

An Introduction to the ensuing Prognostication

What mortal Man can so exactly Write,
 Never to Miss, but always hit the White?
 'Tis well we come so nigh, or know at all,
 Since we got such a Bruise by Adams fall;
 Yet know, there is an Influence, in the Stars,
 Sometimes they Smile, sometimes do threaten Wars.
 But to speak Truth, by some its held a Crime,
 Therefore we must Observe and keep our Time;
 For some are now so Rough and surly grown,
 They Scoff the Mytre, Banter at the Crown.
 But England still keep up thy Towing Pride,
 Thy Ebb will soon turn to a flowing Tide;
 The Impious Crew, now Blush, their aim is lost,
 And their dark designs, at once are Crost:
 They brought us once, near to Confusion,
 With Civil Broiles, and Proud Rebellion,
 Till the Almighty with his outstretch'd Hand,
 Did set us Free, and Purg'd this Drooping Land.
 Like Edoms Sons, they did our Cities Sack,
 And brought all Loyal Subjects to the wreck,
 How did the Mother dread her harmless Child,
 How were our spotless Virgins then defil'd;
 And 'tis not long since, those o'th' Pious Train,
 'Twas fear'd would act the Tragedy again.
 But Rise up Albion! Jove has still decreed,
 To send thee succour, always at thy Need,
 He will Protect thee from the Serpents Sting,
 And always keep thee cover'd with his Wing:
 Give up thy Praises to that Sovereign Might,
 Who always held thee Precious in his Sight;
 And let all Loyal Hearts be ever seen,
 To Pray God keep the Church; Preserve the QUEEN.
 And Grant Her a long and Prosperous Reign
 Earth, and at length Crown Her with Eternal Glory
 She may Reign with Saints and Angels in Heaven,
 and ever. Amen.

SOLE Y's *Astrological Observations*, 1712.

*Astrological Judgments and Observations on the
Quarterly Ingresses of the Sun this Year, 1712.*

And first of the Winter Quarter.

WHICH begins at such time, as the Glorious Lamp of
Heaven the Sun touches the first point of *Capricorn*, or
Earth *Cancer*, take it which way you please; and is on
under the 10th 1711. at 21 h. 52' P. M. or more plain,
the 11th day 52 Minuits past 9 in the Morning, at which
about 27 degrees of *Capricorn* does Ascend, and the very
Part of *Scorpio* does Culminate, the *Sun*, *Jupiter*, *Mars*
Mercury, are all Crouded in the Twelfth House, the House
orrow, Tribulation, &c. *Saturn* is Located in the 7th,
in the Ninth, and the Moon in the fourth; and thus
the *Dragoons-Head* in the 12th, and the Tail in the
stand the Heavens at this time, and besides at the
ventional Lunations or full Moon next following, this
we have *Saturn* in the tenth House, and the *Sun*,
Mars and *Mercury* crowded in the third House; from
we may gather, that many fly Villanies will be Acted,
a Pretence to Religion shall be the Cloak to cover all
oguery, much under Hand dealing, and cunning Inven-
to Gull the unthinking Parts of the World of their
; I hope those at the Helm will take care of the
ing Tribe, for they are Working their Wits to purpose;
eed of their Forefathers has sprung up into such *Factions*
es, that they spread their Banner at Noon Day, and now
they are grown so Rampant again, I will give you the
of the Members and the Belly, which take as follows, &c.
upon a Time a Great Dissention arose between the
ers and the Belly, the Hands and Feet mutiny'd, saying
Belly would take no Pains, but devour the Fruit
their Labour; they insist it ought to Work, and take
for its own Support, or no Work, no Subsistance. The
intreats earnestly, that her Case may be heard and Rightly
h'd, but all in vain. The stubborn Members continue
mate and Refuse it all manner of Sustenance. The Belly
eckled by want, the Spirits Exhausted, and the whole
begins to Sink, then the Members begin to Repent their
Folly,

COLE Y's *Astrological Observations,*

Folly, and offer due *Supply's* with grievous Repentance too late, the *Belly* being too much weaken'd by their *Obcy*, refuses all Food, and thus all the *Members* justly by their own Madness and Obstinate Folly; and only fusing through *Envy* and *Malice* to support that, by they themselves are supported.

The Moral.

Societies are only preserved by *Mutual Benefits* wisely interchanged, therefore let none Foolishly strive to break the *Sacred Tye*; Let each Man quietly and contentedly discharge proper Duties of his Station, and then all will Thrive and prosper, but *Envy* and *Dissention*, destroys the best of Constitutions.

*When the Superior Members of a State,
Refuse their Tribute to the Magistrate;
And will the Nobles Level, soon they come,
Involv'd together to the Fatal Tomb.
By civil Broils the Mob destroy their Kings,
And that one General Devastation brings.
When each with mutual Ardour strive to Love,
The whole with Order does, and Beauty move,
But when Convulsions and Dissentions rend,
'Tis Plain that shatter'd State, will quickly end.*

Many weighty considerations in Hand this Quarter I hope all for the Best, those that Envy our Happiness Feed upon their own *Malice*, for their *Envy* can't but Let us Unite against the common Enemy, and let not the strive to be above the Head, we have once seen the Evil let us now beware, for the Heart of the King, is in the Mouth of the Lord, as the Rivers of Water he turneth it which way he listeth; then who can resist and be Guiltless, what I shall say of this Quarter; only give you an account of Diseases is like to be Predominate therein, which are as Imperfections in the Breast and Stomach, weak digestion, Phlegm and Rotten Coughs, Running Gouts in the Limbs, Arms, and great Obstructions afflicting Mankind, &c.

*Now Winter being gone, pray let us Sing,
A welcome to the next approaching Spring;
Which brings new Life, to things seemingly Dead,
And makes the Plants, hold up their drooping Head.*

POLE Y's Astrological Observations. 1712.

The Spring Quarter.

THE 3 Delightful and most Pleasant Quarter of the whole Year, takes beginning at such time as Bright *Phebus* mounts first Scruple of the Sign *Aries*, or *Cælestial Ram*, and the the Opposite Point of *Libra*, making the Days and Nights of equal Length; this happens this Year, on the Ninth of *March*, about 10 Minuits before Noon, at which time we have 25 degrees of *Cancer* Ascending, and 27 degrees of *Capricorn*, on the 10th House; the Sun Located in the Tenth, and Retrograde in *Leo*, near the Cusp of the Second; *Jupiter* in the Cusp of the Eight, *Mars* in the Ninth, *Venus* in the Tenth, and *Mercury* near the Cusp of the Ninth, the Moon in the Second, and thus stand the Figure of the Heavens at this Ingress; here the Sun is in *Sextile* to *Jupiter*, and therefore hopes that all things will go well, yet from the Opposition of *Mercury* and the Moon she being posited in the Second House, we may expect much Grumbling and Repining, as well among the common People, as those whose Spirits are always restless and Turbulent, who will never be satisfied without all; or rather neither, those who Glory in binding their Kings in Chains, and their Princes in Fetters of Iron. The Trine of the Sun and Saturn in *March*, will prefer Honour on some Grave Person, Saturn being in *Leo* Retrograde, he will not want Enemies; there is also in the same Month a Trine of Saturn and Mars; and now the Soldier begins to prick up his Ears, and is ready for some Enterprize; many Close and Noble Consultations at this Time, let him that betrays his Trust meet with a Reward for his Pains; I would have no Man Hang'd, except he deserve it.

In the Month of *April* we have a Square of *Jupiter* and *Mercury*, and another of the Sun and *Jupiter*; as also one of the Sun and Saturn; and now it is not strange if we hear of disputes about Religion, and perhaps in some Countries Blood-shed about the same; Saturn squares the Sun from his own sign, and no wonder if Majesty it self be not Affronted in some Parts of the World, many set their Wits on Work, to struggle and Strive for the upper Hand, never heeding who falls, so they get up; and notwithstanding they see so many go daily to the Grave, before their Eyes, Live as tho' they should never Dye; taking care for this Earthly Mammon which will Perish, like themselves, and never think of the Bread of Life

COLEY's *Astrological Observations,*

Life, which will never Perish nor Decay. Therefore *are sure there is no place of continual Abode, but that* *must all assuredly leave this World, as ever we came into it* *us Unite and Pray,*

*Long Live Great A N N E, our Gracious Sovereign,
Let none Resist, but all Her Right maintain ;
Against the Gallick Tyrant let's advance,
And make a Peace within the Heart of France ;
Lets lay by Canting of a Proud Pretender.
But Pray God still Defend, our Faith Defender.*

And thus I shall end this Quarter, with an Account of Diseases are like to be predominate this Quarter, and they are as abound with *Blood* and *Humours* corrupted, Running and afflicting the Body with *Wind*, *Cramps*, *Gout*, and *Melancholy* Distempers ; which brings me to the consideration of the Next, which is,

The Summer Quarter.

NO W this Quarter commences at such Time as the *Great Lamp of Heaven the Sun*, touches the first Point of *Celestial Crab*, or *Sign Cancer*, or the *Earth Capricorn*, and this Year on the Tenth Day of *June* near Noon, at which Time the very beginning of the *Celestial Ballance*, or *Sign Libra* Ascends the *Horoscope*, and the beginning of *Cancer* on the *Midheaven* ; here we have the *Sun* on the very Cusp of the Tenth House, *Saturn* in the Eleventh, *Jupiter* and the *Moon* in Conjunction in the Fourth, near the Cusp of the Fifth, *Mars*, *Venus*, and *Mercury*, located in the Ninth in *Gemini* ; and thus stands the Heavens at this Ingress.

Now the former Part of this Quarter afford us many heinous Aspects, and such as seem to settle some matters which have long been in Debate, and there is still hopes of a right understanding, notwithstanding the Malice of the Devil, our Great Enemy, and all those little Malicious Animals his *Emulators* those that Cry down the *Great Pope*, and are ready to set up a *Little One* in every Parish ; the Opposition of the *Sun* and *Jupiter* this Quarter, will be Apt to remove some *British* *Gownman*, by Death or otherwise, and some *Clark* from office upon ; in the Month of *August*, we have a Conjunction of *Saturn* and *Venus*, *Saturn* is in *Leo* his detriment, and if *Saturn*

The Diseases of this Quarter are such, as did for most part
Mankind in the last, as Aches, Pains and Gouty Humours,
Ulcers and breakings out in the Flesh. And this brings
the Last place to

The Autumnal Quarter.

Which this Year takes its beginning on September the
12th, a little past One in the Morning, at which time
enters *Libra*, and makes the Days and Nights at equal
again as in *March*; at this Ingress we have Ten de-
of the Regal Sign *Leo* Ascending, and 20 degrees of *Aries*
ating, *Mars* the furious God of War, is gone Mounted
the back of the *Lion*, and let *Italy* and *Rome* beware, it
make a Man Laugh to see a Cardinal turn Protestant;
the Tricks of State, and self Interest goes a great way
Matters; but the best way, and most pleasing to God,
Unite; for weak Bodies United may become strong, when
divided Strength will become Weak: Intestine Jars and
Ravils always become Fatal, not only to Single Families,
whole Nations; but Mutual Love, Friendship, and Union,
Glory, Strength, and Preservation of both; for to be
it was the Devil that first taught that Doctrine, of Divide
sign. And thus I End my Judgment of this Year, with an
out of those Diseases that are like to be Predominate most;
are such, as will afflict the Heart, a decay in the Reins,
Noisome Vapours, Pains and Weakness in the Back, Itch,
Leprosie, &c.
